Nox Cleaner MOD APK helps you to clean junk files in your Android phone quickly and effectively, and also assists you in managing files. Download now! Introduce about Nox Cleaner Android is an open operating system whereby users can download and install external applications, including unknown sources. Therefore, Android devices can be at risk of hackers attacking through junk files, malicious files that arise during use. There are many solutions to this problem, and Nox Cleaner is one of the best, most popular solutions today. Nox Cleaner is developed by Nox Mobile – a company based in Hong Kong, is the developer of many other popular applications such as NoxAppLock, Nox Security, Nox Browser. Clean up your device quickly and efficiently Even if you don't install apps from unknown/untrusted sources, in use, your Android device will create junk files that fill up memory and decrease overall performance. Nox Cleaner will help you to clean up these junk files simply and quickly. To clean the device, you just need to click on the "clean" icon in the circle in the middle of the screen. Nox Cleaner will scan the file system and applications installed on the device to search for junk. After that, you can see more information about the cleaned up and the total storage space. Note that the types of junk that Nox Cleaner clean include both files and caches stored in apps on the device. As a result, some data will be deleted for those applications to start up and run faster. You will have to grant usage data access to Nox Cleaner to perform these related tasks. Secure your device Not only a junk cleaning app, Nox Cleaner is also a comprehensive security app for Android devices. Specifically, Nox Cleaner can scan and remove viruses. Viruses are terrifying. They are capable of spreading quickly, destroying files, and stealing your information. At the same time, they are also one of the causes of a serious decline in the device's performance. Nox Cleaner can also detect security holes, weak spots on vulnerable devices. From these warnings, you can promptly repair and prevent malicious attacks. In addition to scanning for viruses and vulnerabilities, Nox Cleaner also supports blocking applications at risk of information leakage. You will set up a password for them. And every time you start an application or retrieve information, you need to enter the password to authenticate. Other features Nox Cleaner is a versatile application. In addition to the above features, Nox Cleaner can also help you optimize/save battery power for your device. That is, Nox Cleaner will scan and check the battery consumption of the apps that you have used in the past time and turn them off. Simultaneously, the app also suggests other battery-saving solutions such as turn-on accessibility, turn-off background apps, etc... In addition, you can also perform other tasks such as blocking notifications, cool down CPU, connect VPN with Nox Cleaner. Image management Pictures are one of the main reasons your memory gets filled up so quickly. So, if the device has too many "unnecessary" or similar photos, you can delete them to save memory. Nox Cleaner supports image management. It will scan all the images on the device, then divide them into corresponding albums. From there, you can easily see similar photos to delete. What's more in the Premium version of Nox Cleaner? Nox Cleaner free version has limited features. For example, automatic cleaning, VPN. The Premium version will add these features. It costs \$ 2 per month. You can renew by month or year. Some features of the Premium version: Real-time protection when accessing the internetUnlimited trafficRemove adsAutomatic cleaningVPN connection, change your IP address to network connection to many countries Premium Unlocked: All paid features have been unlocked. Download Nox Cleaner MOD APK for Android Currently, there are many cleaning apps like Nox Cleaner on Google Play.
